Lithuanian designer Laura Dailidėnienė designs jewelry, bags, costumes, and represents her brand DAILI.

She is an active participant of various fashion events since 1998 and has a design studio in Vilnius, LITHUANIA.

STYLE:

A very important feature of the design of Laura Dailidėnienė is a clear and purified concept conveyed by her jewelry and costumes. Laura embraces the direction that is more challenging to perceive by the public at large, and in her design process she employs not only commercially marketable fashion elements.

Laura's inspiration comes from nature. Her style is minimal. Her clothes – sculptural, designed from light, easy draping materials, such as silk. Laura uses floral motives in her accessories and "frozen flowers" (real natural flowers) in glass-silver jewelry.
