„ The Fall season was inspired by the bird's feather motif.

We see new patterns, this time it's inspired by the lightness of mystery, marble-like pattern, which is combined with graphic lines.

The fabrics include specifically treated cotton, wool, silk, jacquard knitwear. The minimalistic layers make this collection look fabulous and sophisticated.

Why does everything looks so attractive, well,

I think it's because of the exclusiveness,

pure minimalistic touches of Baltic/Nordic culture. „
